LUXOR™

OUTDOOR KITCHEN PRODUCTS

OUTDOOR COOKING AND HEATING PRODUCTS

COMBINATION GRILLS

Bringing together the best of both worlds, infrared and convectional systems can be combined in any size LUXOR grill.

CONVECTION GRILLS

LUXOR's convection style burner systems, composed of stainless steel u-shaped burners, rated at 27,500 BTU's each, is considered one of the highest BTU ratings in the industry. Combined with the heavy-duty stainless steel plates that support ceramic rocks, which help disperse heat evenly, absorbing and burning the drippings of food, results in the enhancement of flavor. The convectional style burner systems include 3/8" diameter stainless steel cooking grills.

SPRING ASSIST HOODS

LUXOR's new spring assist design makes lifting grill hoods much easier.

INFRARED BURNER

LUXOR grills are equipped with ceramic infrared burners which allow for higher heat output and professional cooking results. The infrared energy produced from LUXOR grills is similar to heat produced from the sun. This type of energy is a direct heat source which allows the food to cook faster while making it juicier and more flavorful. This method of grilling has been a favorite among professional cooks and restaurants.

Since there is no need for a heat distributing shield on top of the burner, there is less cleanup. This also eliminates the build-up of grease on heat distribution shields which could result in grease flare-ups.

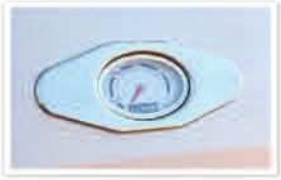
Ceramic infrared burners cook the food over 50% faster than convection burners this allows you to sear the food faster to keep in all the juices. The LUXOR ceramic infrared burners are adjustable and can be set at a lower setting to accommodate grilling foods that require less heat such as vegetables.

INFRARED BACK BURNER

All LUXOR gas grills are available with or without rotisserie. The Infrared ceramic back burner produces intense searing heat which helps lock in flavor and juices. Since there is no secondary heat element to trap grease, flare-ups are virtually eliminated. The back burner could be used in conjunction with the smoker box which will allow for a more smoky flavored food. The rotisserie is equipped with a heavy duty rod and motor. Using a rotisserie could become a part of your lifestyle and not just a weekend event. From chicken to seafood, turkey to roast beef, Ribs to leg of lamb, use the rotisserie like a professional.

SMOKER BOX

Add great wood smoke flavor to all your grilled food using the independent smoker box and burner. The smoker burner is placed between two main burners for an even distribution of the smoke. Use the convenient stainless steel tray to add wood chips of different flavors as you grill. Hickory, mesquite, apple, cherry, pecan and alder are just some of the choices. The smoker box and burner also allows for cold smoking for added flavor.



CUSTOMIZED TEMPERATURE GAUGE

The easy to read LUXOR temperature gauge will allow you to operate your grill with ease, like a professional cook.

WARMING RACK

Each unit includes a stainless steel warming rack, it will keep the food warm and add a higher level of low temperature cooking.

LIGHTS

LUXOR grills are equipped with built in halogen lights for your night time cooking pleasure. The double halogen lights and the blue LED illuminated indicators are a useful tool for night time grilling and they add a beautiful accent to any backyard.

POLISHED EDGES

Welded construction ensures for high quality in structural integrity. Each unit has polished edges adding fine accents to the LUXOR grills

FREE STANDING SERIES

LUXOR 30” FREE STANDING GRILL / ROTISSERIE (AHT-30FR)

- Built-in halogen surface lights
- Blue LED knob indicators
- Stainless steel warming rack
- Available in L.P. (Liquid Propane) or N.G. (Natural Gas)
- 730 square inches of total cooking area (490 main grilling area)
- Two convection gas burners producing 55,000 BTUs
- Smoker box with independent burner
- 15,000 BTU Infrared back burner
- Electric stainless steel Rotisserie motor
- Cabinet doors and double drawers for easy storage access

CONDIMENT HOLDER

LUXOR 36” FREE STANDING GRILL / ROTISSERIE (AHT-36FR)

- Built-in halogen surface lights
- Blue LED knob indicators
- Stainless steel warming rack
- Available in L.P. (Liquid Propane) or N.G. (Natural Gas)
- 925 square inches of total cooking area (630 main grilling area)
- Three convection gas burners producing 82,500 BTUs
- 15,000 BTU Infrared back burner
- Electric stainless steel Rotisserie motor
- Cabinet doors and double drawers for easy storage access

LUXOR 42” FREE STANDING GRILL / ROTISSERIE (AHT-42FR)

- Built-in halogen surface lights
- Blue LED knob indicators
- Stainless steel warming rack
- Available in L.P. (Liquid Propane) or N.G. (Natural Gas)
- 1050 square inches of total cooking area (701 main grilling area)
- Three convection gas burners producing 82,500 BTUs
- Smoker box with independent burner
- 15,000 BTU Infrared back burner
- Electric stainless steel Rotisserie motor
- Cabinet doors and double drawers for easy storage access

LUXOR 54” FREE STANDING GRILL / ROTISSERIE (AHT-54FR)

- Built-in halogen surface lights
- Blue LED knob indicators
- Stainless steel warming rack
- Available in L.P. (Liquid Propane) or N.G. (Natural Gas)
- 1370 square inches of total cooking area (910 main grilling area)
- Four convection gas burners producing 110,000 BTUs
- Smoker box with independent burner
- Dual 15,000 BTU Infrared back burners
- Electric stainless steel Rotisserie motor
- Cabinet doors and double drawers for easy storage access

BUILT-IN SERIES

LUXOR 30” BUILT-IN GRILL / ROTISSERIE (AHT-30R-BI)

- Built-in halogen surface lights
- Blue LED knob indicators
- Stainless steel warming rack
- Available in L.P. (Liquid Propane) or N.G. (Natural Gas)
- 730 square inches of total cooking area (490 main grilling area)
- Two convection gas burners producing 55,000 BTUs
- Smoker box with independent burner
- 15,000 BTU Infrared back burner
- Electric stainless steel Rotisserie motor

LUXOR 36” BUILT-IN GRILL / ROTISSERIE (AHT-36R-BI)

- Built-in halogen surface lights
- Blue LED knob indicators
- Stainless steel warming rack
- Available in L.P. (Liquid Propane) or N.G. (Natural Gas)
- 925 square inches of total cooking area (630 main grilling area)
- Three convection gas burners producing 82,500 BTUs
- 15,000 BTU Infrared back burner
- Electric stainless steel Rotisserie motor

LUXOR 42” BUILT-IN GRILL / ROTISSERIE (AHT-42R-BI)

- Built-in halogen surface lights
- Blue LED knob indicators
- Stainless steel warming rack
- Available in L.P. (Liquid Propane) or N.G. (Natural Gas)
- 1050 square inches of total cooking area (701 main grilling area)
- Three convection gas burners producing 82,500 BTUs
- Smoker box with independent burner
- 15,000 BTU Infrared back burner
- Electric stainless steel Rotisserie motor

LUXOR 54” BUILT-IN GRILL / ROTISSERIE (AHT-54R-BI)

- Built-in halogen surface lights
- Blue LED knob indicators
- Stainless steel warming rack
- Available in L.P. (Liquid Propane) or N.G. (Natural Gas)
- 1370 square inches of total cooking area (910 main grilling area)
- Four convection gas burners producing 110,000 BTUs
- Smoker box with independent burner
- Dual 15,000 BTU Infrared back burners
- Electric stainless steel Rotisserie motor

CHARCOAL BUILT-IN SERIES

LUXOR 30" BUILT-IN GRILL (AHT-30CHAR-BI)

- 304 Stainless Steel construction

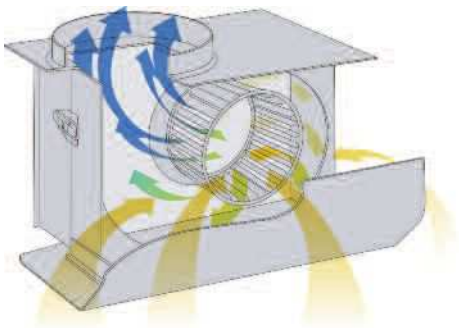
(LX-HXT-36)
(LX-HXT-48)
(LX-HXT-60)

THE MAGIC LUNG®



QUITE.

Turn it on and you’ll hear only a whisper of air movement. The Luxor Vent Hood blower system provides the quietest ventilation available.

EFFICIENT.

The powerful Magic Lung® blower traps cooking contaminants, liquifies grease vapor and removes heat polluted air. Because Magic Lung® does not pull air through a filter, it provides the most efficient kitchen ventilation available today.

EASY CLEANING.

The Magic Lung® blower housing snaps apart for easy cleaning in the dishwasher or with warm soapy water. The motor is enclosed in a specially designed housing to keep it out of the grease flow. This means no hidden grease in hard to reach areas.

FIRE SAFETY.

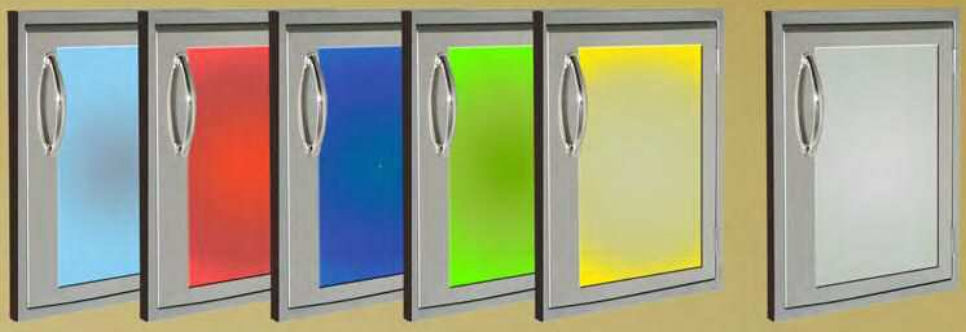
The Magic Lung® constant speed centrifugal blower liquifies grease and creates a pressure barrier, which lowers risk of fire.

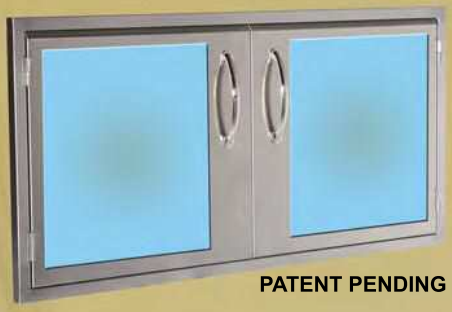
POWERFUL.

The Magic Lung® blower can be configured to provide the power needed for even the most demanding cooking surfaces.

LUXOR

OUTDOOR KITCHEN PRODUCTS





PATENT PENDING

Improve your backyard experience with the new, exciting and revolutionary PATENT PENDING LUXOR LED illuminated accessories. The illuminated diamond etched frosted glass will provide a great entertainment value to your outdoor experience.
The LUXOR Outdoor Kitchen Accessories could be enjoyed simply as an elegant glass panel, or illuminated LED glass panel to the color of your choice, or it could be enjoyed to the beat of your favorite music and light combination.

Our custom "LuxorBBQ LED" WIFI app will allow you to control your LUXOR illuminated accessories through your Android or Apple smart device remotely, up to five devices may be connected to a single controller box. Also, the controller box may be connected to a Bluetooth wireless speaker device.You may control multiple controller boxes through the "LuxorBBQ LED" APP.
